20th Year Anniversary

October 30, 2006 was our first radio broadcast on KLTT in Denver, CO. It has been twenty years, and the Directors and I got together to celebrate and evaluate the effectiveness of Living God Ministries. We also had the Regional Manager for Crawford Broadcasting company present to talk with us about the evaluating the statistics from the listener feedback.

The recent testimonials page on the website has the past ten years of the best comments received, and the comments from the first ten years are in binders. A reasonable low end estimate shows over 800,000 people experienced significant life change through the work we did, and know their God in a profound way. They have a relationship with Him well beyond what other ministries have been able to accomplish through their work. In addition, there are countless others who have grown closer to the Lord Jesus in small ways, and are still learning more about the relationship we have with Him. They have an understanding of the Gospel, the New Covenant, and understand enough about law and grace to not go back to a form of religious bondage that will keep them from growing in their faith. In addition to all of these, there are countless more people who know where to find us when they get sick and tired of being sick and tired of the systems of religious bondage they are stuck in.

Every non-profit organization files an IRS Form 990 to account for the donations they received and how the money was distributed. These are available to the public through the Internet. I would like to encourage you to read these filings for other ministries you are familiar with, and compare them with ours. Compare the results of what we have done with what others have done, and compare how much was received in donations. Do also make note of how much the Pastors received, and how much was spent to solicit for donations. Living God Ministries has been the exception on all accounts.

Since the founding of Living God Ministries, every donation has been treated as holy, and every penny is accounted for. I personally received very little compensation for the work I did. The calculation for how much we received, divided by the 800,000 people minimum described above works out to approximately .88 cents for each significantly changed life. This is

best compared with the average 1.2 million spent for all other organizations to obtain one profession of faith to salvation.

I want you to understand that it is the truth our God has revealed that makes the difference in a person's life.

Success like this in the spiritual realm does not come without some form of opposition. Reflecting on the past twenty years, the success of this work was met with an equivalent amount of opposition from people and demonic powers, which I endured personally.

Do support this continued work by donating through the website link, or with a check or money order to:

If you are able, considering this success, do also consider sending something to me personally for the security and stability of my own household. The last twenty years for me has been a relatively isolated life, raising three children by myself, spending a lot of time in the garden, the kitchen, and home schooling about half the time. I do believe my health is good enough that I can continue doing this work for another twenty years.
